Transportable aggregate section in transport position ready for towing

Transportable aggregate section in working position

CMQ offers a simple batch plant, with towable 8m³ aggregate section, 2.4T capacity transportable cement weigh hopper that reverse weighs and has a bag breaker for cement bulker bags.

Advantages:

- » Ideal for remote locations.
- » No requirement for craneage for mobilisation and demobilisation.
- » Aggregate section can produce 60m³/hr.
- » Remote control panel.
- » 12v winch for raising and lowering.
- » Winch leads with clamps to attach to a car battery.
